The meeting was called to order at 3:30 p.m. Dean Susan Pfeiffer welcomed Graduate Education Council members and visitors.

The Dean called for a motion to adjourn no later than 5:00 p.m.

**MOTION** *(duly moved and seconded)*

THAT the meeting of the Graduate Education Council will adjourn no later than 5:00 p.m.

The motion was CARRIED.

**Approval Agenda of the Graduate Education Council Meeting of October 23, 2007**

**MOTION** *(duly moved and seconded)*

THAT the agenda of the Graduate Education Council meeting of October 23, 2007 be approved.

The motion was CARRIED.

1. **Minutes of the Graduate Education Council Meeting of May 22, 2007**

The minutes of the May 22, 2007 meeting were circulated with the agenda.

**MOTION** *(duly moved and seconded)*

THAT the minutes of the May 22, 2007 School of Graduate Education Council meeting be approved.

The motion is CARRIED.

2. **Business Arising from the Minutes**

2.1 **Follow-up on recent GEC decisions forwarded to Governing Council committees**

   a) The proposal for a Master of Science and Doctoral program in Cell and Systems Biology was approved by: the Academic Policy and Programs Committee on September 10, 2007; the Planning and Budget Committee on
September 18, 2007 and; the Academic Board on October 2, 2007. OCGS appraisal is ongoing.

b) The proposal for a Master of Science and Doctoral program in Ecology and Evolutionary Biology was approved: the Academic Policy and Programs Committee on September 10, 2007; the Planning and Budget Committee on September 18, 2007 and; the Academic Board on October 2, 2007. OCGS appraisal is ongoing.

c) The closure of the Joint Master’s Degree Program in Spatial Analysis (University of Toronto, Department of Geography and Ryerson Polytechnical University) was approved: the Academic Policy and Programs Committee on September 10, 2007; the Planning and Budget Committee on September 18, 2007 and; the Academic Board on October 2, 2007. Approval is final – there are no longer any students in the program

3. **Dean’s Remarks**

3.1 **Intellectual Property Guidelines**

Intellectual Property Guidelines for Graduate Students and Supervisors have been revised and a new Intellectual Property Awareness Form has been created. They are available on the SGS website. They should be reviewed by students and their supervisors at beginning of a student’s graduate program in order to highlight important related issues. The Dean welcomed feedback from members.

3.2 **Connaught Reception**

The reception will take place at the Faculty Club on Tuesday, November 6th, 2007 from 4:00 – 6:00pm.

The recipients of the Connaught Awards are a remarkable group of international scholars. The Awards serve as a tool for recruiting very high quality international students.

3.3 **Graduate Briefing Session**

The Session will take place at Simcoe Hall in the Council Chamber, Room 215 on Friday, October 23, 2007 from 2:00 – 4:00p.m. A number of different projects that are of interest to graduate units are on the agenda. All graduate Chairs/ Directors, Coordinators, Administrative Staff and Graduate Education Council members are invited to attend.

3.4 **Session for Graduate Administrators**

SGS Student Services will be hosting a General Meeting for Graduate Staff Administrators on Friday, November 2nd, 2007 from 2:00-4:00 p.m. in McLennan Physical Labs Room 102. Administrative staff members are crucial to the delivery of high quality graduate education.
3.5 **Reminder of upcoming Consultation & Communication Events**

The Dean encouraged members to attend one of several Town Hall meetings scheduled in October and November. The meetings will address graduate matters relating to the “Toward 2030” document.

3.6 **2007-08 Recruitment Activities**

The Canadian government is promoting the Reaching Higher initiative and encouraging an increase in graduate enrolment. All graduate units at the University of Toronto have evaluated the possibility of expanding student capacity and as a result enrolment increased substantially in 2007-08.

The initiative has a two-year focus and expansion is also anticipated for the 2008-09 academic year, thus recruitment activities are becoming increasingly important and accordingly, SGS has hired Mr. Glen Matadeen, Recruitment and Programming Officer.

Evaluating international credentials and the “Bologna Process” has received recent attention since the practice will seek to standardize the length of degree programs in Europe. Standardization of academic programs is advantageous, but it can be a challenge because the traditional lengths of academic programs differ in Europe and North America.

3.7 **Report on Graduate Education Council Fall 2007 By-Election Results**

The supporting documentation was circulated with the agenda package. The Dean congratulated newly acclaimed members.

The nomination process for a second by-election is currently open, and the deadline is November 2, 2007. Faculty seats are currently vacant in Division I, II and III.

4. **Report of the Vice-Dean, Programs**

4.1 **Memorial for Professor Richard Ericson**

Professor Richard Ericson, Director of the Centre for Criminology, passed away on October 2, 2007. There will be a memorial service on October 25, 2007 at 2:00 pm at Hart House.

4.2 **Final Oral Examinations**

SGS is currently testing a web-based system that will be used to pre-approve external examiners. In the next few months, SGS will be encouraging departments to use the system when proposing Final Oral Examination committees.

4.3 **Centres and Institutes**

Vice-Dean Cowper noted that she serves as the Faculty Dean for SGS Centres and Institutes. There are currently four SGS Centres and Institutes under review: the Knowledge Media and Design Institute; the Institute for Life Course and Aging; Mathematical Finance and; the Centre for International Studies. Reviews are performed in connection with the search for the end of term director. Shortly, committees will be announced and input will be sought.
A member asked if the question of transferring Centres and Institutes from SGS to one of the other University of Toronto faculties will be addressed as part of the review process. Vice-Dean Cowper replied affirmatively.

4.4 **Tri-Campus Task Force on Drama Programs**

A Task Force will be formed to consider academic theatre and performance, with a view to optimizing Drama programs.

4.5 **Upcoming Graduate Program Proposals**

There are currently four new graduate program proposals being considered in the governance process. Currently posted on the Graduate Webposting System (GWS) are: the Master’s in Health Informatics; the Master of Health Science in Medical Radiation Sciences and; the Collaborative Doctoral Program in Global Change. Council members are considering the Collaborative Master’s and Doctoral program in Sexual Diversity Studies at today’s meeting. A fifth new program proposal, the Collaborative Program in Global Health, will be posted on the GWS in the coming weeks.

In the 2006-07 academic year, Graduate Education Council members reviewed new program proposal for: the Collaborative Master’s and Doctoral Program in Women’s Health; the Master of Arts in Cinema Studies; the Master of Science in Community Health and a Diploma in Community Health; Master of Music in Music Performance and a Doctor of Musical Arts; the Master of Science and Doctoral Program in Cell and System’s Biology and; the Master of Science and Doctoral Program in Ecology and Evolutionary Biology. The proposals related to Cell and System’s Biology and Ecology and Evolutionary Biology are currently being appraised by OCGS.

There are hundreds of proposals currently posted on the GWS. Most of the items relate to new courses, but it is possible for members to choose to view major items only. Comments as a result of posting on the GWS are filed and forwarded to units who have submitted the proposal.

5. **Report of the Vice-Dean, Students**

5.1 **Bursary Application**

Vice-Dean Smith introduced proposed changes to the SGS bursary process. He expressed his thanks for contributions from administrative staff at OISE since SGS has adopted rules of best practices based on OISE models. Changes to the application process will result in clarity, transparency and openness.

All applicants who apply for a bursary should also apply for the Ontario Student Assistance Program (OSAP). The OSAP process will be used as a preliminary assessment for bursary recipients.

Funds that are allocated for living expenses and other expenses will be standardized and will recognize the slightly higher cost of living in Toronto. Greater transparency in the Guidelines regarding allowable expenses will clarify the application process.

The need for a unit’s graduate coordinator to approve all bursary applications will be eliminated in order to adhere to rules of the Freedom of Information Privacy
Protection Act (FIPPA) and because applications may contain information that a student may not wish to discuss with their supervisor or department.

SGS is in the process of developing a new website and a revised form to aid students and departments with proposed changes.

A member questioned if SGS will be notifying departments when a student receives a bursary. Ms. Heather Kelly, Director of Student Services, noted that the relevant information is available through ROSI and the member suggested that a message should also be sent to departments via e-mail. Vice-Dean Smith noted that the member’s suggestion will be considered.

A member commended the changes but also expressed concern that students do not report all funds that they receive from their department. Vice-Dean Smith noted that SGS might take steps to monitor students’ additional funds whenever possible.

5.2 **Grad Room**
The Grad Room will serve as a social activity centre for graduate students to host events and seminars. The upper-level is a lounge and the lower-level, which has recently received approval for renovations, will function as an e-classroom for 40-45 people.

The space will also house the new SGS Recruitment and Programs Officer.

5.3 **Electronic Theses & Dissertation Project**
Vice-Dean Smith deferred to Ms. Heather Kelly who introduced the Electronic Theses Project (ETD) and distributed supporting documentation (see attached).

A member questioned the process of submitting supplementary thesis materials. Ms. Kelly explained that SGS will be holding workshops to help students who want to submit additional, non-textual materials.

A member asked if SGS considered standards for archiving when developing the EDT project. The member also questioned if PDFs or PDF/As will be the submission standard since PDF/As allow for the insertion of special characters. Vice-Dean Smith noted that PDFs are currently the accepted submission format, but PDF/As will be considered in the future.

A member asked if these submissions will have a file size limit, and if all materials submitted must be converted to PDF. Vice-Dean Smith replied that the thesis is the PDF file, but other supplementary materials could be added to it.

Vice-Dean Smith noted that SGS will be sending out a package to graduate units containing relevant information and links. A member asked if the package will contain submission templates. Ms. Heather Kelly explained that templates are currently available on the SGS website.

A member asked if students will have the opportunity to revise or correct their dissertation. Ms. Heather Kelly noted that there are two opportunities to correct the document during the submission process, but once a thesis has been officially submitted, corrections cannot be made by the student, only by SGS.

A member wanted to know if SGS will be providing Adobe Acrobat to all departments. Vice-Dean Cowper noted that the Adobe Acrobat can be purchased for a minimal cost by departments and can be forwarded to students.

A member questioned if templates will be upgraded as new versions of relevant computer programs become available. Vice-Dean Smith replied affirmatively.
A member asked if the use of templates is mandatory. Vice-Dean Smith replied that style standards are mandatory, but changes can be made to the templates. Shortly, SGS will be hosting workshops related to using theses templates. A helpline will also be available via the information commons at Robarts Library.

6. **Proposal from the Faculty of Arts and Science for a New Collaborative Master’s and Doctoral Program in Sexual Diversity Studies**

   The supporting documentation was circulated with the agenda package. The “Administration of the Program” section of the OCGS document was revised and made available today; it is on yellow coloured paper.

   The proposal was posted on the GWS for 28 days. There was no feedback as a result of the posting. The proposal was approved by the Faculty of Arts and Science, Three Campus Graduate Curriculum Committee at its meeting of October 9, 2007. There was no discussion regarding the proposal at the meeting.

   In the package, members received two proposal documents for approval. One is the U of T submission document – this document addresses all aspects of the proposal, from resource issues to academic matters. The second document is the OCGS appraisal brief, Volume I. OCGS requires the approval of the Graduate Council prior to our submission of a proposal for appraisal.

   With Graduate Education Council’s approval this item will be sent for information to the Academic Policy and Programs Committee. GEC approval constitutes final University approval. After Graduate Education Council’s review, the proposal will be submitted to the Ontario Council on Graduate Studies for a standard appraisal with consultants.

   Professor David Rayside was present to speak to the item. The Dean called upon Vice-Dean Cowper to present the motion.

   **MOTION (duly moved and seconded)**

   THAT Graduate Education Council approve the proposal from the Faculty of Arts and Science for a Collaborative Master’s and Doctoral Program in Sexual Diversity Studies, effective September 2008.

   Vice-Dean Cowper invited Professor Rayside to speak to the proposal. Professor Rayside explained that the Centre for Sexual Diversity Studies currently sponsors a substantial interdisciplinary undergraduate program. There are more than 50 tenure track faculty members across the University who have primary research interests in sexuality. The proposed program is a welcomed addition to the University, and provides an opportunity for the University to become a leader in this field.

   A member asked why there was no significant discussion at the Faculty of Arts and Science Three Campus Graduate Curriculum Committee regarding the proposal. Professor Rayside explained that there has been significant dialogue during the planning stages of the proposal. The absence of major discussion at the meeting indicated that there is recognition that the proposed collaborative program is a logical addition to University of Toronto graduate programs.

   A member remarked that many Division IV departments currently are engaging in ongoing research that is related to the proposal. The member wanted to know about
consultations with Life Sciences departments during the planning stages of the proposal. Professor Rayside noted that the Department of Public Health Sciences is noted in the proposal as part of the collaborative program and other Life Sciences departments were considered during the planning stages of the proposal; however, not all departments that were approached were able to respond before governance deadlines. Many departments that are not noted in the proposal have expressed interest in being a part of the Sexual Diversity Studies program, and future partnerships are likely.

The motion was CARRIED.

7. **Program Requirement Changes**

7.1 **Chemistry, Ph.D.**

The supporting documents were circulated with the agenda package. The proposal was posted on the GWS for 28 days. There was no feedback as a result of posting on the GWS. This proposal was approved by the Faculty of Arts and Science Three Campus Graduate Curriculum Committee at its meeting of October 9, 2007. There was no discussion regarding the proposal at the meeting. The approval of the Graduate Education Council is final.

Professor Jon Abbatt was present at Council to answer questions should they arise. The Dean called upon Vice-Dean Elizabeth Cowper to present the motion.

**MOTION (duly moved and seconded)**

THAT the Graduate Education Council approve the proposal from the Faculty of Arts and Science to reduce program requirements in the Chemistry, Ph.D. Program. Required courses for students in Analytical Chemistry, Environmental Chemistry, Inorganic Chemistry, Experimental Physical Chemistry, Organic Chemistry, and Polymer and Materials Chemistry will be reduced from “a minimum of two full-course equivalents” to “two to four half-course equivalents”. Changes are effective September 1, 2008.

The motion was CARRIED.

7.2 **Criminology, M.A., Ph.D.**

The supporting documents were circulated with the agenda package. The proposal was posted on the GWS for 28 days. There was no feedback as a result of posting on the GWS. This proposal was approved by the SGS Committee on Centre and Institute Programs (CCIP) on October 11, 2007. There was no discussion regarding the proposal at the meeting. The approval of the Graduate Education Council is final.

Professor Scott Wortley was present to answer questions should they arise. The Dean called upon Vice-Dean Elizabeth Cowper to present the motion.

**MOTION (duly moved and seconded)**

THAT the Graduate Education Council approve the proposal from the School of Graduate Studies, Centre for Criminology, to eliminate CRI 1050H Theories of Crime and Social Order as a required course in the
M.A. and Ph.D. program. The total number of required courses remains unchanged. Changes are effective immediately.

The Dean noted that the proposed change will provide more latitude regarding elective courses.

The motion was CARRIED.

7.3 Human Development and Applied Psychology, Developmental Psychology and Education, M.Ed. program

The supporting documents were circulated with the agenda package. The motion and governance form was revised and made available today. It is on yellow coloured paper. The proposal was posted on the GWS for 28 days. There was no feedback as a result of posting on the GWS. This proposal was approved by the Faculty Council of the Ontario Institute for Studies in Education at its meeting of October 10, 2007. There was no discussion regarding the proposal at the meeting. The approval of the Graduate Education Council is final.

Professor Michele Peterson-Badali was present to answer questions should they arise. The Dean calls upon Vice-Dean Elizabeth Cowper to present the motion.

MOTION (duly moved and seconded)

THAT the Graduate Education Council approve the proposal from the Ontario Institute for Studies in Education, Department of Human Development and Applied Psychology, Developmental Psychology and Education, to eliminate the comprehensive examination requirement from the M.Ed. program. Changes are effective immediately.

A member noted that the skills that would normally be evaluated by the comprehensive examination will be assessed in another course. The member questioned whether or not the course is a program requirement. Professor Peterson-Badali replied affirmatively.

The Dean asked if students currently registered in the Developmental Psychology, M.Ed. program approve of the proposed change. Professor Peterson-Badali explained that students were consulted and they perceive the change as favorable.

A member questioned the implications of the change for students already enrolled in the program. Vice-Dean Cowper explained that students have the option of completing the program in which they enrolled, but since proposed changes ease requirements, changes are effective immediately. If the proposed change increased requirements, the earliest that it could be implemented would be for the next round of admitted students.

The motion was CARRIED.

7.4 Management, M.B.A.

The supporting documents were circulated with the agenda package. The proposal was posted on the GWS for 28 days. There was no feedback as a result of posting on the GWS. This proposal was approved by the Rotman Faculty Council April 24, 2007. There was no discussion regarding the proposal at the meeting. The approval of the Graduate Education Council is final.
Professor Peter Pauly was present to answer questions should they arise. The Dean called upon Vice-Dean Elizabeth Cowper to present the motion.

**MOTION (duly moved and seconded)**

THAT the Graduate Education Council approve the proposal from the Rotman School of Management to eliminate MGT 2911H Integrative Management Challenge from M.B.A. program requirements and replace it with a 2000-level elective course. Changes are effective immediately.

A member noted that the subject matter that is reviewed in MGT 2911H Integrative Management Challenge is valuable, and she questioned why it is being eliminated from program requirements. Professor Pauly explained that students will still study comparable material, but tutelage will take place during the first year instead of the second year of the program.

The motion was **CARRIED**.

7.5 **Medieval Studies, M.A., Ph.D.**

The supporting documents were circulated with the agenda package. The proposal was posted on the GWS for 28 days. There was no feedback as a result of posting on the GWS. This proposal was approved by the Faculty of Arts and Science Three Campus Graduate Curriculum Committee at its meeting of October 9, 2007. A summary of the meeting discussion is noted on the motion sheet. The approval of the Graduate Education Council is final.

Professor Lawrin Armstrong and Professor David Townsend were present to answer questions should they arise. The Dean called upon Vice-Dean Elizabeth Cowper to present the motion.

**MOTION (duly moved and seconded)**

THAT the Graduate Education Council approve the proposal from the Faculty of Arts and Science to change program requirements in the Medieval Studies M.A. and Ph.D. program as follows:

**MA and Ph.D. program:**

1) MST 1000 Introductory Medieval Latin and MST 1001 Intermediate Medieval Latin be regularized as “Y” courses, the mark being dependant on regularly scheduled translation exercises and on term exams in December and April

**M.A. program:**

2) The M.A. Latin requirement be renamed the “Level One” requirement and this requirement continues as a prerequisite to registration in the Ph.D. program

3) Students must complete four full-course equivalents, including MST 1000Y Introductory Medieval Latin or three full-course equivalents, and complete the Level One Latin requirement
4) The credit and grade for MST 1000Y Introductory Medieval Latin be separated from the Level One requirement

Ph.D. program
5) The credit and grade for MST 1001 Intermediate Medieval Latin be separated from the Level Two requirement
6) Students must complete MST 1001Y Introductory Medieval Latin if they do not successfully complete the Level Two exam upon the commencement of the doctoral program. Enrolment in MST 1001Y will be open only to doctoral-level students (M.A. students may choose to audit)
7) The Ph.D. Latin requirement be renamed the “Level Two” requirement
8) The pre-requisite for advanced seminars in Latin is completion of MST 1001Y

Changes are effective September 1, 2008.

A member noted that the proposed change will offer three levels instead of four levels of Latin. The member wanted to know what would be offered to students in lieu of MST 1000 Introductory Medieval Latin. Professor Armstrong noted that MST 1000 Introductory Medieval Latin is not a core course requirement and does not appear on students’ transcripts. The course has been offered as a pedagogical tool help students achieve an intermediate level of Latin. Thus, students will be expected to commence the program with the equivalent of a full-year course that can be completed through the Department of Medieval Studies the summer prior to commencing the program. If students cannot attend the summer sessions because of other obligations, they can familiarize themselves with texts recommended by the Department. Professors are also available to provide tutorial support via e-mail, and thus it is expected that by the time students start the program, they will have received a basic introduction to Latin. The Department will address remedial concerns with tutorials. Overall, the change will work to regularize and reflect a student’s course enrolment.

A member noted that the Latin language standard in the Department is very high and thus it is important to inform undergraduate students who intend to enroll in the graduate program of the necessity of familiarize themselves with Latin early in their undergraduate career. Professor Armstrong agreed with the member’s suggestion.

The Dean requested more information about Latin competence standards at the University of Toronto. Professor Armstrong noted that standard for Latin requirements at the University are amongst the most rigorous in North America, and many institutions require that their students complete the certification offered at U of T. Changes proposed are in the interest of maintaining the University’s high standards and will accommodate the extremely varied backgrounds of students who enroll in the program.

The motion was CARRIED.
8. **New Hood: Master of Management of Innovation, M.M.I.**
   The supporting documentation was circulated with the agenda package. It is the responsibility of Graduate Education Council to receive and approve proposed hood designs. If the motion is passed, Council’s approval is final. The approval will be forwarded to the Office of the Governing Council Secretariat for ordering. The Dean called upon Vice-Dean Berry Smith to present the motion.

   **MOTION** *(dually moved and seconded)*
   THAT Graduate Education Council approve a new hood for the Master of Management of Innovation (M.M.I.) Program.

   The motion was CARRIED.

9. **Other Business**

   A member requested information on developing a “Co-op” program. Dean Pfeiffer noted that governance deadlines for the submission of proposals for new programs for commencement in 2008 are approaching, and that the member should contact Vice-Dean Cowper or Ms. Alderdice for information on preliminary planning.

10. **For Information**

10.1 **Report on Graduate Education Council Fall 2007 By-Election Results**
   The supporting documentation was circulated with the agenda package.

10.2 **Electronic Theses & Dissertation Project**
   The supporting documentation was circulated at the meeting.

10.3 **Department Name Changes:**

103.1. **Department of Medical Genetics and Microbiology/Graduate Department of Molecular & Medical Genetics to the Department of Molecular Genetics**
   The supporting documentation was circulated with the agenda package.

103.2. **Department of Pharmacology to the Department of Pharmacology and Toxicology**
   The supporting documentation was circulated with the agenda package.

11. **Meeting is Adjourned**
   The October meeting of Graduate Education Council is adjourned at 4:55 p.m.

---

Timelines

• Commencing in the fall 2007, both master’s and doctoral students may opt to submit the final version of their thesis to SGS in electronic form (Phase One). Submission in paper form as at present will remain as an option.

• In Phase Two, proposed for fall 2009, all doctoral-stream students must submit final versions of their thesis electronically.

Enter the abstract of the item below.

Abstract
Submit: Upload a File

Please enter the name of the file on your local hard drive corresponding to your item. If you click "Browse...", a new window will appear in which you can locate and select the file on your local hard drive. More Help...

**Netscape users please note:** By default, the window brought up by clicking "Browse..." will only display files of type HTML. If the file you are uploading isn't an HTML file, you will need to select the option to display files of other types. Instructions for Netscape users are available.

Please also note that the T-Space system is able to preserve the content of certain types of files better than other types. Information about file types and levels of support for each are available.

Uploaded File:  test.txt - Text (Supported)
You've made a work you're proud of. Now it's time to get creative with how you make it available.

Creative Commons licenses help you share your work while keeping your copyright. Other people can copy and distribute your work provided they give you credit — and only on the conditions you specify here. This page helps you choose those conditions. If you want to offer your work with no conditions, choose the public domain.

Allow commercial uses of your work? (more info)
- Yes
- No

Allow modifications of your work? (more info)
- Yes
- Yes, as long as others share alike (more info)
- No

Select a License
There is one last step: In order for T-Space to reproduce, translate and distribute your submission worldwide, your agreement to the following terms is necessary. Please take a moment to read the terms of this license, and click on one of the buttons at the bottom of the page. By clicking on the "Grant License" button, you indicate that you grant the following terms of the license.  More Help...

Not granting the license will not delete your submission. Your item will remain in your "My T-Space" page. You can then either remove the submission from the system, or agree to the license later once any queries you might have are resolved.

By signing and submitting this license, you (the author(s) or copyright owner) grants to University of Toronto and to Library and Archives Canada the non-exclusive right to reproduce, translate (as defined below), and/or distribute your submission (including the abstract) worldwide in print and electronic format and in any medium, including but not limited to audio or video.

You agree that University of Toronto may, without changing the content, translate the submission to any medium or format for the purpose of preservation.

You also agree that University of Toronto may keep more than one copy of this submission for purposes of security, back-up and preservation.

You represent and warrant that the submission is your original work, and that you have the right to grant the rights contained in this license. You also represent that your submission does not, to the best of your knowledge, infringe upon anyone's copyright.

If the submission contains material for which you do not hold copyright, you represent that you have obtained the unrestricted permission of the copyright owner to grant University of Toronto the rights required by this license, and that such third-party owned material is clearly identified and acknowledged within the text or content of the submission.

If the submission is based upon work that has been sponsored or supported by an agency or organization other than University of Toronto, you represent that you have fulfilled any right of review or other obligations required by the agreement with such sponsor.

University of Toronto will clearly identify your name(s) as the author(s) or owner(s) of the submission, and will not make any alteration, other than as allowed by this license, to your submission.

Authenticity Statement
The thesis is the approved and final version, in whole and without alteration, submitted to the School of Graduate Studies of the University of Toronto as a requirement of the degree program in which the author is registered.

Submit: Submission Complete!

Your submission will now go through the workflow process designated for the collection to which you are submitting. You will receive e-mail notification as soon as your submission has become a part of the collection, or if for some reason there is a problem with your submission. You can also check on the status of your submission by going to the My T-Space page.

WELCOME

Electronic Theses and Dissertations (ETDs) are theses or dissertations prepared using Adobe PDF software. ETDs can contain non-text elements such as multimedia, sound, video, as well as text and hypertext links. ETDs are housed in T-Space, the U of T digital library repository designed to capture, store, index, preserve, and redistribute scholarly research material in digital formats. Scholars worldwide are able to use T-Space to search, locate and download U of T ETDs.

SEARCH ETDs

Masters

Doctoral
Advantages

- Enhance sharing of university research results
- ETDs are becoming a *de facto* standard
- Many different media can be represented digitally
- Increase students’ awareness of digital library technologies and requirements
- Facilitate workflow
- ETDs will be indexed by and findable
- ETDs may reduce student costs
- Less physical space is required for storage
- Virtually all theses/dissertations are already written and edited in electronic form
