MITACS CANADA GLOBALINK RESEARCH INTERNSHIPS

- The Canadian government, through Mitacs, funds research abroad opportunities for Canadian and international graduate and undergraduate students.
- This is open to students in all disciplines who are interested in engaging in research for a minimum period of 12 weeks.
- The Mitacs Globalink Research Award provides matching funds of $3,000 CAD for students from Latin America to visit U of T.
- Students are responsible, with the support of their home university faculty, for securing research supervisors at the host university.
- For undergraduate students, placements at U of T are available May to August. For graduate students, research visits can be planned for up to 12 months through the International Visiting Graduate Student (IVGS) program.

INTERNATIONAL AWARDS & SCHOLARSHIPS FOR STUDENTS FROM LATIN AMERICA

The University of Toronto (U of T) ranks as one of the top universities in the world, and is situated in one of the world’s most diverse cities.

Three campuses, 170 research institutes, and 9 teaching hospitals give students unparalleled opportunities to study with leading researchers, and benefit from dynamic professional graduate programs.

Today, U of T is home to approximately 650 students from Latin America, many of whom are graduates of the region’s leading universities.

International PhD students in most programs at U of T are charged the same tuition fees as our domestic students. To further attract and support Latin America’s best and brightest students, U of T has established a number of scholarship agreements with government agencies and foundations in Canada and Latin America.
